

Umut Eren Demirci

Game Designer — Systems · Levels · Progression

Ankara, Türkiye umuterendemirci@gmail.com linkedin.com/in/umut-eren-demirci-a68a39163
Portfolio: umuterendemirci.github.io

Game designer coming to games from twelve years of teaching English and designing courses, with a background in linguistics. I design difficulty curves, progression and systems that players can read at a glance, and I check them with data and playtests: for my mobile games **Brushfall**, **Arcana Siege**, **Cloudhaven Skyport** and **Arcana Match** I built bots that play the real rules to tune pacing and difficulty, and for **The Mouth of Silence** I designed a constructed language as a puzzle system. I work in Unity and Unreal Engine 5 (Blueprints), Excel and design documents.

Projects

Unstitched · hyper-casual 3D unravel puzzle for mobile and web · Unity 6 · play: ueren.itch.io/unstitched — 2026 · personal project

- Designed a puzzle where crocheted toys come apart round by round onto spools of their colour, with a tray of 0 to 3 places, sewn-on parts and, from level 5, layers with an eye that shows one layer down: 13 toys, each built from its stitches in code.
- Measured every position of every toy: most spool orders can't be lost at all (84% of a sample for the bear), so I chose each queue and tray from the tuner, from a random player's 100% on the first toy to 10% on the hardest. GDD, flowcharts, level workbook, ad and KPI plan.

Bonemarch · hybrid-casual 3D tower defense for mobile and web · Unity 6 · play: ueren.itch.io/bonemarch — 2026 · personal project

- Designed a calm tower defense with a card draft: five towers, seven enemies, ten boons and eight places on an island. Bots on its own rules fitted each level to a first-time player's target (100% down to 60%) and found boons worth only −3 to +2 points.

Pull-out · hyper-casual tap-away puzzle for mobile and web · Unity 6 · play: ueren.itch.io/pull-out — 2026 · personal project

- Designed a tap-away puzzle with a queue of colour boxes and a tray of five: 40 levels with bands, clips, ink, boosters and timed levels, each mechanic kept only if the solver shows it changes the par or the tray. GDD, flowcharts, level workbook, ad and KPI plan.

Shelf Life · hyper-casual sort puzzle for mobile and web · Unity 6 · play: ueren.itch.io/shelf-life — 2026 · personal project

- Designed a book-sort puzzle with one twist, height: tall volumes fit only on the few tall shelves, so a set with an atlas must finish on one. Later chapters add a returns cart that only gives and locked cases that open when a colour is finished. 40 levels in four chapters.
- Kept a mechanic only if the solver showed it changes the best line, so my first two ideas were redesigned; bots found a careless player dead-ends in 75–98% of games on 9 of 11 height levels. GDD, flowcharts, level workbook, ad and KPI plan.

Clockwork · hyper-casual puzzle for mobile and web · Unity 6 · play: ueren.itch.io/clockwork — 2026 · personal project

- Designed a ring-rotation puzzle with one twist: cogs that link neighbouring rings at 2:1, and padlocked rings that turn only through a cog. 40 levels in four chapters on a sawtooth, a level map and combo praise, art built on a professional free kit.
- A generator lays out each level spec and a solver proves every par; playtests changed it: one-way cogs read as broken (now two-way), and level 10's best line went from 6 moves to 4. GDD, flowcharts, level workbook, ad and KPI plan.

Brushfall · hybrid-casual puzzle for mobile and web · Unity 6 · play: ueren.itch.io/brushfall — 2026 · personal project

- Designed a game that chains four genres with one currency per step: a 30-second match-3 charge sets the hero's power, a power climb banks paint by colour, and the paint restores famous paintings. Daily painting, weekend Grand Climb, skins, rewarded revive.
- Balanced with bots at human speed: weak players ran 9 climbs short on the wrong colours, and colour-led drops, chapter prices and restorations that keep their progress cut it to 1–2. GDD, flowcharts, live economy workbook, CPI test and KPI plan.

Arcana Siege · match-3 tower defense for mobile · Unity 6 · play: ueren.itch.io/arcana-siege — 2026 · personal project

- Designed a puzzle defense where every tile colour fires a tower: four towers, seven enemy types, an upgrade draft, 12 sieges.
- Tuned with bots, then reworked after a studio playtest: the road now moves with the player's moves, so mashing fell from 87% to 10% and slow thinkers rose from 10% to 50%. GDD, flowcharts, balance workbook, ad and KPI plan.

Cloudhaven Skyport · arcade idle management for mobile · Unity 6 · play: ueren.itch.io/cloudhaven-skyport — 2026 · personal project

- Designed an airship-port tycoon in the Airport Master style: a counter chain served by standing at it, 22 build pads and 10 goals per island, staff, Grand Liners, island twists (storms, VIPs) and rewarded-only ads.
- Paced with an economy simulator that plays the shipped rules as three kinds of player: the first pass ended in 15 minutes for everyone, so demand upgrades, slower staff and matching capacity made a 53-minute island where skill counts.

Arcana Match · tarot match-3 for mobile · Unity 6 · play: ueren.itch.io/arcana-match — 2026 · personal project

- Designed the whole game (85 levels on a Fool's Journey map, 11 board shapes, blockers, specials and combos, a 78-card collection, a story I wrote) and a balance simulator of its rules: a spawn-weight sweep lifted level 18 from 33% to 85%.

The Mouth of Silence · narrative puzzle adventure · Unity 6 · play: ueren.itch.io/the-mouth-of-silence — 2026 · personal project

- A playable chapter of my novel built on *Kha'shul*, a constructed language I designed as the puzzle system (10 words, 5 grammar rules); rewrote a puzzle after an outside playtest and produced 343 voiced lines. 16-page GDD; 56 rule tests.

The Chronicles of Demise · narrative RPG concept · Unreal Engine 5 — May 2025 – present · personal project

- Prototyped emotion-driven movement in Blueprints for a game adapting my own fantasy novel series.

More design work

Design samples · a level pack, a level teardown, level design, narrative design, feature proposals, game concepts 2026

- A hand-made level pack for Arcana Match: 12 levels, each with an intent, a designed fail point checked against simulated losses, a clear heatmap and logged iterations, tuned to a sawtooth of target win rates.
- A level teardown of Candy Crush Saga's first 105 levels: pacing, teaching and difficulty tags from public level data, two levels rebuilt and simulated, and a redesign of level 46.
- Level design from five shipped games' data, narrative design from my novel, four live-ops features with A/B tests and three game concepts.

Game deconstructions · Raid Rush (Panteon) and Royal Match (Dream Games) 2026

- Broke down each game's loop, meta, economy and live ops from public data and proposed A/B-tested changes with guardrail metrics.

Tabletop RPG design · D&D 5e modules and world-building Dec 2022 – May 2024

- Wrote and ran adventure modules, adjusting encounters, pacing and rewards from what happened at the table.

Experience

Game Designer · independent, Ankara May 2025 – present

- Designed and released ten playable games on itch.io: **Unstitched** (hyper-casual 3D puzzle), **Bonemarch** (hybrid-casual tower defense), **Pull-out** (hyper-casual tap-away puzzle), **Shelf Life** (hyper-casual sort puzzle), **Brushfall** (hybrid-casual puzzle), **Arcana Siege** (match-3 tower defense), **Cloudhaven Skyport** (arcade idle management), **Arcana Match** (casual match-3), **Clockwork** (hyper-casual puzzle) and **The Mouth of Silence** (narrative puzzle adventure).
- Owned design end to end: core loops, level and difficulty design, balance simulators, playtests and GDDs for all ten; F2P economy, monetisation and ad / KPI plans for the mobile games. Full-time since January 2026.
- I design every game; an AI coding assistant (Claude) writes the code to my specs, and I set the rules and tuning, run the balance simulations and play-test each phase.

Private English Tutor · self-employed, Ankara Jan 2024 – Jan 2026

- Planned one-to-one courses around each learner's level and goals, adjusting pace and difficulty lesson by lesson.

Visa and Education Consultant · TEOL and Bilimevi, Ankara (alongside teaching) 2023 – 2025

- Guided clients through visa and study-abroad applications, from first meeting to decision.

English Teacher and Course Designer · language schools and companies, Ankara 2014 – Dec 2023

- Taught English to groups and corporate clients for nine years, designing courses that introduce one new skill at a time on a rising difficulty curve and adjusting the pace from learners' results.

Skills

Design	Systems and balancing · difficulty curves and level pacing · progression and meta · F2P economy design · live ops · game deconstruction and market analysis · narrative and puzzle design · dialogue writing · playtesting · GDDs and flowcharts
Tools	Unity 6 · C# · Unreal Engine 5 Blueprints · Python · Excel and Google Sheets (formulas, charts, simulation data) · Mermaid / draw.io · Git
Languages	Turkish (native) · English (fluent)

Education

Ankara University · English Language and Literature (2013–2017), then Linguistics (2017–2022) coursework, no degree

Design documents

Unstitched	One-pager · GDD (6 pages) · Flowcharts · Level design workbook · Ad test and KPI plan
Bonemarch	One-pager · GDD (6 pages) · Flowcharts · Balance and economy · Ad test and KPI plan
Pull-out	One-pager · GDD (6 pages) · Flowcharts · Level design workbook · Ad test and KPI plan
Shelf Life	One-pager · GDD (6 pages) · Flowcharts · Level design workbook · Ad test and KPI plan
Brushfall	One-pager · GDD (12 pages) · Flowcharts · Balance and economy · Ad test and KPI plan
Arcana Siege	One-pager · GDD (12 pages) · Flowcharts · Balance and economy · Ad test and KPI plan
Cloudhaven Skyport	One-pager · GDD (11 pages) · Flowcharts · Balance and economy · Ad test and KPI plan
Arcana Match	One-pager · GDD (22 pages) · Flowcharts · Balance and economy · Card catalogue
Clockwork	One-pager · GDD (6 pages) · Flowcharts · Level design workbook · Ad test and KPI plan
The Mouth of Silence	One-pager · GDD (16 pages) · Kha'shul language reference · Flowcharts · Script sample
