

MOBILE PUZZLE · UNITY 6 · PORTRAIT

ARCANA MATCH

Match the suits, walk the Fool's journey, and collect all 78 cards.

The Fool's Journey

Pip tells the story

Special combos

A card for every win

Collect all 78

THE PITCH

A calm, card-collecting match-3 along the Fool's Journey. Every win adds a tarot card to your deck; every chapter ends at a gate that awards one of the 22 major arcana, in order. Pip, the Fool's dog, tells the story.

DESIGN PILLARS

- **Readable:** colour, shape and glyph on every tile.
- **Every win gives you something to keep.**
- **Gentle:** free mistakes, free reshuffles, no energy.
- **Satisfying:** light, particles and chimes on every action.

SYSTEMS

- 85 levels on a map; 11 board shapes; veils, chains and seals.
- 5 specials and 6 combos from swapping two.
- 3 boosters, a once-per-attempt rescue.
- 78-card collection, foil, daily draw.

MY ROLE

Game design, systems and balancing, UX, and art and audio direction. Built in Unity (C#) with an AI coding assistant (Claude): I set the rules and tuning and play-tested every phase.

DESIGN PROCESS

Seven playable checkpoints. Data changed the game: a balance bot showed late levels stalling (goal tiles made 1.4x likelier: 33% to 85%) and shaped gates as walls (retuned to 68%+); my card spreadsheet exposed a Pentacles flaw, fixed by the journey map.

IN THIS PORTFOLIO

- Game Design Document (22 pages)
- System flowcharts (10)
- Balance and economy workbook
- Card catalogue (78 cards)
- Playable web build and source
